Mountain Weather Forecast

Lake District National Park

Forecast valid from 06:00 on Tuesday 17 May 2022 until 23:59 on Wednesday 18 May 2022

Forecast Issued on Tuesday 17 May 2022 at 03:09

Confidence: An unsettled week with bands of rain although a lot of brighter weather too, quite a warm week with, sometimes strong, southerly or southwesterly winds but this does mean mist and fog patches will form readily at times.

Headline for Tuesday 17 May 2022: Dry, bright start, clouding over later with some rain.

Mountain weather hazards on Tuesday 17 May 2022

Blizzards No Likelihood	**Heavy persistent snow** No Likelihood	**Storm force winds** No Likelihood
Gales No Likelihood	**Severe chill effect** No Likelihood	**Poor visibility** No Likelihood

Forecast for Tuesday 17 May 2022

Weather: Sunny, dry and bright in the morning, cloud thickening during the afternoon with a few spots of rain or drizzle in the west, a band of heavier rain is expected to spread east during the evening period, clearing east overnight.

Chance of cloud-free hill tops above 800m: 90%, falling to 60% by late afternoon, more so in the west.

Low cloud and visibility: Some early mist will reduce visibility but this will quickly clear to give mostly good visibility throughout the day. Some lower cloud thickening around south western fell tops later in the afternoon and early evening. By late afternoon scattered low cloud above 600m towards Coniston. Visibility falling moderate in any rain or drizzle by late afternoon.
